Third Sunday in Lent

### **Yucky Meds**

Children who have malaria can take medicine for it. But the medicine doesn't always work or their parents cannot buy it and it tastes bad! Someday there will be a vaccine - a shot like we have for measles or chickenpox - and no one will get malaria. Maybe you will be the person who will discover the vaccine!!

What helps children to be strong and healthy?

What helps you feel strong and healthy?

Who helps take care you of when you don't feel well?

***A Prayer:***

Dear God, thank you for everyone who works to keep us healthy. Thank you for doctors and nurses. Thank you for scientists who work in laboratories, finding new medicines and new vaccines to keep us from getting sick.

***Ecclesiasticus 38:4***

The Lord created medicines out of the earth,  
and the sensible will not despise them.
